

**RETAINING WALL STABILIZATION  
+ FOUNDATIONS UNDERPINNING  
417 Catherine Ave.**

**To Offerors:**

The following additions, deductions, changes and corrections to the proposal and specifications for the above referenced project shall hereby be incorporated into the work, and their effect on the proposal shall be reflected in the Offeror's proposal. Offerors shall also verify this fact by indicating the receipt of the addendum in their proposal.

1. **Change:** Bid Due Date change from Wednesday June 5<sup>th</sup> to Thursday June 13<sup>th</sup> at 10:00am

2. **Reminder:** All Questions concerning this solicitation shall be submitted via email to [procurement@cintimha.com](mailto:procurement@cintimha.com)

**3. Questions**

**a. *Is the bidding date & time remains the same? June 5, 10AM***

Refer to Item 1 of this addendum.

**b. *Can I ask for a copy of the pre-bid attendees/planholders list?***

As indicated on Addendum 1 No vendor attended the Pre-Bid Walk Through.

**c. *How much will be the project estimated cost?***

Response will be in Addendum 3 to be issued before the end of the week.

**d. *Is there any addendum issued to date aside from addendum 1 posted online?***

No

**e. *When would be the best time to follow up for the preliminary bid tabulation/result?***

This is a public opening bid at the date and time the bids are due. At that time the proposals will be read aloud and CMHA staff will begin the due diligence to determine the responsiveness of the lowest bid. The results of the bid will be posted on CMHA website when the diligence is complete.

**f. *Can we get a bid extension for 1 week, 5th to the 12th?***

Refer to Item 1 of this addendum.

- g. Ref. sheet S100 (drawings) The plan calls for the soil nail/shotcrete wall to extend 18" below the existing stone wall, there are remnants of an old concrete foundation butted up against the wall, our recommendation is to leave this in place and terminate against it or has permission been given to remove this? Without knowing the details of this old foundation, it may be integrated with the stone retaining wall, making it impossible to remove without damaging the stone wall.***

Response will be in Addendum 3 to be issued before the end of the week.

- h. Ref. sheet S100 (drawings), there are 3 trees to be removed and stumps grinded down 12" below grade, the trees are embedded in the wall and can be removed however grinding the stumps should not be done.***

Response will be in Addendum 3 to be issued before the end of the week.

**End of Addendum 1**
